Trial Balance acts as the first step in the preparation of financial statements. It is a working paper that accountants use as a basis while preparing financial statements. Trial balance ensures that for every debit entry recorded, a corresponding credit entry has been recorded in the books in accordance with the double entry concept of accounting. Trial Balance | Explanation & Example - Accounting-Simplified - Step Nine: Post Closing Trial Balance. The last step is to prepare a post-closing trial balance to ensure that all accounts have been closed properly and to test the equality of debit and credit balances of all the balance sheet accounts. Record any accounts having non-negative balances after closing entries have been passed and posted. What is Accounting? - Related PDFs :
